

Entrance Exam

The aim of the Entrance Exam

The applicants introduce themselves, show their attitudes and abilities that make them eligible to continue their studies on Master's level in Psychology.

The examination consists of two parts.

Part 1

- The applicant introduces him/herself
- The applicant Expresses motivation and attitudes
- The applicant presents a research proposal in counselling or school psychology and discuss it with examination board
 - The research proposal should be submitted prior the exam to the Registrar's Office. The document should be 4000-6000 characters (with spaces), and should cover the goals, the theoretical background (literature), the hypotheses and the planned methods of the planned research. The board will evaluate the proposed goal of the research and the understanding of the underlying theoretical background.

Part 2

- The applicant takes a practical situation and explains his understandings and suggestions.
 - The applicants can choose by free will from the given situations. They can prepare their answers prior the exam at home.
